This product contains max 500g/l VOC.

FILM THICKNESS

Wet: 380–440µm, dry: 190–220µm.

SIZE

5 Litre

PREPARATION

All surfaces to be painted should be dry and free from dust, salts, grease and other contaminants prior to application.

APPLICATION

Stir thoroughly before use. Apply evenly using a clean, well loaded brush. To ensure correct thickness is achieved, do not attempt to brush out or lay off.

CLEANING

Remove as much product as possible from application equipment before cleaning. Clean equipment immediately after use with TC1 Thinner and Cleaner. Replace lid firmly. Some local authorities have special facilities for the disposal of waste coatings. Do not empty product into drains or watercourses.
